Dear Dr. Karim

We would like to sincerely thank you for your series of lectures on the applications of causal methods. Your presentations were all highly informative and clear. We very much appreciated the extra effort you put into your slides; providing code in both R and Stata in addition to annotating each step. These “hands on” lectures greatly facilitated our understanding of the theory as well as the applications.

Many thanks again,

Sincerely,

PhD Candidates | Epidemiology, Causal Inference (EPIB 610)
